

What We Offer

Hydraulic Hose Assembly

G.A. Miller is the largest fabricator of hydraulic hose assemblies in Northern Wisconsin. Our experience, quality of work and attention to detail is unmatched in the industry.

Hydraulic & Pneumatic Components

G.A. Miller is a large distributor of fluid power components to the mobile and industrial markets. With our extensive experience in the fluid power industry, and our partnerships with some of the world's leading fluid power manufacturers, G.A. Miller provides innovative, cost effective solutions that allow our customers to gain a competitive advantage in their marketplace.

Hydraulic System & Custom Design

From initial design through final installation, G.A. Miller specializes in the fabrication of complete hydraulic and pneumatic systems. Whether remote or in person, we can assess your application and recommend solutions to address your toughest challenges. Hydraulic and pneumatic systems from G.A. Miller are designed, engineered and built for use in all kinds of environments, in configurations to fit available space, and to meet required specifications and standards.

Automatic Lubrication Systems & Lube Equipment

G.A. Miller partners with Graco, a world leading manufacturer of lubrication products, to design and install lubrication systems and provide lube equipment for the mobile and industrial markets. We work closely with our customers to find the best solution that meet their specific needs.

Value Added Services

Our Value Added Services are designed to strengthen your business operations, reduce your operating costs and increase your bottom line. We work closely with our customers to provide bin fill systems, point of use delivery, door to door product delivery, product kitting, inventory management and technical support.

Same Day Delivery
Call orders placed by 2pm are eligible for same-day shipment.
